

# WHAT'S IN IT FOR BUSINESSES

SHAPING EUROPE'S DIGITAL FUTURE

> February 2020 #DigitalEU

## New opportunities for businesses in a digitalised society

## Access to high-quality industrial data

#### Farmers can produce more food at lower cost

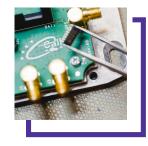

- Analysing data on harvests, seeds, and use of fertilisers can make farming more efficient. Farmers could earn €225 more per hectare.
  - The EU-funded Data Driven Bioeconomy project cut spraying and irrigation costs by 30%.

#### Manufacturers can optimise production

Data-based optimisation alone can save €90 billion in the manufacturing sector, worldwide.

## Better framework for doing business online

Fair access to markets to start up, scale up, innovate and compete on fair terms.

The Digital Services Act package will establish clear rules for access to the Single Market and to strengthen the responsibility of online platforms.

### Competition rules fit for purpose

Ensure **EU rules** are right for digital businesses, big and small, as well as for traditional industries.

## Investing in people and infrastructure

• More workers with digital skills will fill the 1 million vacancies that constrain business growth;

• EU and national funding to kick-start **advanced connectivity** and **secure European data clouds**.

## Supporting SMEs to use Artificial Intelligence

• **Develop a new SME Strategy** to strengthen innovative and fast-growing start-ups and SMEs;

- > Set up specialised Digital Innovation Hubs on Artificial Intelligence;
- Improve access to finance.
